Shorelands and Environmental Assistance Program

March 2009

Application for State of Washington Water Quality Certification and Coastal Zone Management Act Consistency

Interested parties are hereby notified that the Washington State Department of Ecology (Ecology) has received an application to perform work in waters of the United States as described below and shown on the enclosed drawings.

Ecology will review the work pursuant to Section 401 of the Clean Water Act, with applicable provisions of State water pollution control laws and the Coastal Zone Management Act.

This public notice is consistent with the requirements of Section 401 of the federal Clean Water Act and Chapter 173-225 of Washington Administrative Code. This notice is only intended to inform all interested parties of the proposed projects and to seek comments from the public, local, state, federal, and tribal agencies. It does not indicate approval of the proposed projects by any state agency.

Applicant

Cemex
6300 Glenwood Avenue
Everett, WA 98203

Special accommodations:

If you need this publication in an alternate format, call the Shorelands and Environmental Assistance program at 360-407-6096. Persons with hearing loss, call 711 for Washington Relay Service. Persons with a speech disability, call 877-833-6341.

Work

The applicant proposes to relocate its facility to the new site for off-loading aggregate from barges. Construction of the new facility includes a fixed pier with associated catwalks, dolphin, crane, hopper, and conveyor. The project also includes replacement of approximately 50 linear feet of bulkhead, construction of four new stormwater outfalls, and removal of existing structures as mitigation.

Purpose

Cemex is re-locating its existing facility (hot-mix asphalt plant, with related aggregate storage, asphalt recycling and barge unloading) from the Jeld-Wen site in North Everett to this new location.

Comment and Review Period

Ecology is requesting comments from the public, state and local agencies, tribes, and other interested parties to evaluate the impacts of each proposed activity.

Anyone wanting to present their views about this project may do so by providing written comments within 21 days of the publication date of this notice. Conventional mail or e-mail comments on this public notice will be accepted and made part of the record.

Ecology will evaluate all the comments received to determine whether to approve, approve with conditions, or deny a certification for the proposed work.
